On the evening of Friday 14th November a public meeting is being hosted in the Sanctuary by Friends of Westwoodhill Recreation Area as they seek to challenge the development of housing on the recreational area.

The Working Group meet again on Monday 17th November at 7.30pm in Greenhills Church

All that in addition to the normal mid-week activities, church and community groups that have found a home within the church.

Now, as we progress toward the creation of Westhills Parish Church an issue we have to address is that of transport for members who live at a distance from the church in what will be a much larger parish area, roughly ¼ of East Kilbride. Getting members to church in the early stages of the union will be a key factor for its ongoing success. Initially we are looking for drivers who may have available seats (I know many drivers already provide lifts and may not have spare seats) If you can help please leave your name and contact details on the sheet in the Hall of Fellowship. We will also explore other modes of transport as well as exploring help with drivers costs.

We also hope to prepare a church newsletter to keep you informed of progress merging our two congregations together. The newsletter will be available in print and by email (QR Code) and the working title will be "Our High Point: the newsletter of Westhills Parish Church"
